

4F\_2024-2025/fork/ESERCIZIO  
-WEXITSTATUS-1.c

```
graph TD; A["4F_2024-2025/fork/ESERCIZIO  
-WEXITSTATUS-1.c"] --> B["sys/wait.h"]; A --> C["stdio.h"]; A --> D["unistd.h"]; A --> E["stdlib.h"]; A --> F["fcntl.h"]; A --> G["time.h"];
```

The diagram illustrates the header file dependencies for a C program. A central box at the top represents the source file, with arrows pointing down to six separate boxes, each representing a header file that the source file includes.

sys/wait.h

stdio.h

unistd.h

stdlib.h

fcntl.h

time.h
